

# Curriculum Vitae: Jessica Norstog

## Doctoral Student

### Education

2015: B.S. in Marine Biology, University of New Haven, West Haven, CT

2015: B.S. in Environmental Sciences, University of New Haven, West Haven, CT

### Research Interests

My work at Conte is focused on osmoregulation of agnathans, specifically in adult sea lamprey (*Petromyzon marinus*). I am interested in understanding the osmoregulatory abilities of anadromous and landlocked populations.
